What we automate:

- Lead capture & follow-up automation
- Client onboarding workflows
- AI agents & chatbots
- CRM & tool integration
- Reporting & dashboards

revkins.com

THE PROBLEM

Your business is bleeding time and money every single day.

Lead Decay

70% of leads go cold within 5 minutes. No instant response = lost revenue, every day.

Hidden cost

Manual Work Tax

Your team spends 10+ hrs/week on data entry and admin that a system should handle.

Hidden cost

Disconnected Tools

Slack, CRM, Email, WhatsApp — nothing talks in real time. Data lives in silos.

Hidden cost

Fragmented AI

ChatGPT isn't a strategy. Without orchestration, your AI tools are expensive toys.

Hidden cost

THE SOLUTION

One unified AI system that runs your entire operation.

Revkins connects your tools, automates your workflows, and gives your team back the time to focus on work that actually grows the business.

10×

faster lead response time

80%

reduction in manual admin

3×

more output with same team

WHAT WE BUILD

6 systems. Every manual workflow — eliminated.

Lead Capture & Follow-Up

Instant multi-channel responses, smart qualification, automated booking — no lead goes cold.

Client Onboarding Workflows

Collects info, creates tasks, sets up accounts — consistent and automatic, every time.

AI Agents & Chatbots

Trained on your business to qualify, answer, and handle repetitive conversations at scale.

Outreach & Personalization

AI-driven sequences that research prospects and craft personalised messages at scale.

CRM & Tool Integration

Your CRM, comms, and project tools seamlessly connected — zero data silos, ever.

Reporting & Dashboards

Automated pipeline reports and dashboards — clear visibility, zero manual pulling.

HOW WE WORK

From broken processes to systems that run themselves.

01 — 02 — 03 — 04

Diagnose

We map your workflows, identify bottlenecks, and trace where time and revenue is being lost.

Design

We design the full system logic before building — so AI adds real leverage, not noise.

Build & Deploy

We connect tools, APIs, and AI models into one end-to-end system running 24/7.

Scale

Tested for edge cases and deployed with monitoring for long-term stability and growth.

WHO IT'S FOR

Built for businesses that compete on execution.

Agencies & Consultants

- Spending hours on admin that shouldn't need you
- Client comms & delivery isn't consistent
- Want to scale without more hires

Service Businesses

- Handling 10+ leads a week
- Booking & onboarding is manual and slow
- Running ops via WhatsApp and email

Growing Digital Teams

- Tools don't talk to each other
- Work falls through the cracks
- Want visibility without more meetings

RESULTS

What happens when manual work disappears.

3 Days → 2 Hrs

Client onboarding time cut for a digital agency

12+ Hrs

Per week saved on manual admin

0 Extra Hires

Output tripled without growing the team

5 Min

Average lead response time vs hours before

Revkins didn't just automate tasks — We built the entire operational backbone of our agency. Lead follow-ups, onboarding, reporting. All automated. Our team now focuses 100% on client delivery.

WHY REVKINS

Not a tool. Not a freelancer. A system builder.

REVKINS

- End-to-end system design & build
- Outcome-first, not feature-first
- All tools connected into one engine
- Ongoing monitoring & scaling support
- India-based, international standards
- Fixed deliverables, clear timelines

DIY TOOLS / FREELANCERS

- Disjointed tools, no unified system
- You manage the complexity
- No strategic system thinking
- No support after delivery
- Generic, not business-specific
- Scope creep, unclear timelines
